

Phoniatory topics:

- Dx Grey Areas, MTD vs SD
- Dx Grey Areas, EVT vs SD
- Dx Grey Areas, ILS vs cough/PVFM
- Cellular and Molecular Biology- Epithelial Biology
- Cellular and Molecular Biology- Scarring
- Cellular and Molecular Biology- electrical stimulation for aging voice
- Vocal fold structure; topic to be refined
- Perceptual Protocols/Measurements- Auditory
- Perceptual Protocols/Measurements - Visual (stroboscopy, etc.)
- Voice Range profile
- Neurology-Working on the Brain - DBS MSDs
- Neurology-Working on the Brain - DBS MSDs
- Dysphagia - Voice/Laryngeal Dysfunction
- Dysphagia - Voice/Laryngeal Dysfunction
- Pediatric Voice Problems, topics TBD
- Other Potential Themes:
- Therapy Outcomes
- Changing Keys
- ILS/Chronic Cough Therapy: How we do it.
- Topic to be Determined?
- "Professional Voice Evaluation and Treatment" (from Sherri's notes: Is this about vocal performers?)
